

FROM THE EXECUTIVE COMMITTEE

This is the ninth edition of our monthly newsletter highlighting October news and events. First of all, we are very pleased to welcome the Université de Sherbrooke as an institution member. Professor Fontaine will be its representative on the executive committee. By this addition, ReSMiQ is now supported by 11 Quebec's universities. As for our involvement, many of our members attended the annual symposium of CMC Microsystems, which was held on 13-14 October in Ottawa. Moreover, ReSMiQ sponsored TEXPO where we have been involved in several organizational duties. Furthermore, ReSMiQ is invited to attend the annual symposium of Prompt which will be held in Montreal November 18, 2009. This event will bring together the main Quebec strategic alliances under this year's theme « Taking new challenges ». On the other hand, we received the report of the 2009 NEWCAS conference, which took place in Toulouse, France. We congratulate the organizing committee members for this successful event. With regard to NEWCAS 2010 to be held in Montreal, we want to draw your attention to the online paper submissions which will be available soon and we invite you to visit the conference website for more details. Finally, we take this opportunity to inform you that the executive committee counts on all ReSMiQ members to encourage their students to become more involved in graduate studies activities.

We invite our members and readers to bring to our attention any relevant news for publication in the next monthly newsletters.

We thank those of our members who have sent their common CV and recall that deadline is November 14.

Best regards.
M. Sawan, director

RESMIQ'S ACTIVITIES

FQRNT scholarship competition for international internships, up to 15 000\$.

APPLICATION DEADLINE – Novembre, 2009
