

FROM THE EXECUTIVE COMMITTEE

Here is a new edition of your monthly newsletter SIGNAL. First of all, we completed the summary of the 2010 edition of NEWCAS, which took place in Montreal. It appears that this latest edition of NEWCAS has generated a substantial profit. Congratulations to the members of the organizing committee for the outstanding performance. We also take this opportunity to thank our many sponsors who contributed to this incomparable success. We are already announcing that the 2011 edition of NEWCAS is to be held in Bordeaux, in France. We invite you to regularly visit the event website for details. Earlier this month, ReSMiQ attended the CMC Microsystems Annual Symposium in which several of our members have given presentations of their research. The interest there was remarkable. As for our involvement in training of highly qualified workforce, ReSMiQ held on 29 October, an intensive course on labs on a chip. This event was marked by the presence of several industrial and academic participations. Then, we recall that the deadline for updating common CVs of our members is 12 November 2010. Finally, we announce that ReSMiQ is organizing its annual symposium part of the ACFAS congress at Sherbrooke. This symposium will be followed by the members general assembly.

We are interested in your news (exposure, involvement, and achievement) for publication in SIGNAL.

We thank those of our members who have sent their common CV and recall that deadline is November 12.

Best regards,
M. Sawan, director

NEWS FROM OUR MEMBERS

EXPOSURE

Dr. Sawan from Polytechnique offered a keynote at IEEE EMBS chapter in Waterloo.

[More details](#)

Dr. David de Polytechnique gave an interview to the magazine PLAN of the OIQ on his research activities.

INVOLVEMENT

Dr. Lakhssassi from UQO leads the research group on wireless reconfigurable measurement systems.

[More details](#)

ACHIEVEMENT

Dr. Sawan from Polytechnique is co-recipient of the science and technology award of the vulgarization and innovation competition of the ACFAS.

[More details](#)

Dr. Sawan from Polytechnique is co-recipient of the MEMS-CAP Microsystems Design Award of CMC Microsystems.

[More details](#)

Dr. Fayomi from UQAM is co-recipient of the Best Analog Research Paper Award at SBCCI2010 conference.

Drs. Peter and Zhu Polytechnique were awarded a CFI grant for Microsystems advanced control equipments.

OTHER CONFERENCES

2010 IEEE Biomedical Circuits and Systems Conference (BioCAS), November 3 – 5, 2010, Paphos, Cyprus.

[More details](#)

2010 IEEE International Conference on Electronics, Circuits and Systems (ICECS), December 12 – 15, 2010, Athens, Greece.

[More details](#)

2010 IEEE International Conference on Microelectronics (ICM), December 19 – 22, 2010, Cairo, Egypt.

[More details](#)

2011 IEEE International Symposium on Circuits and Systems (ISCAS), May 15 – 18, 2011, Rio de Janeiro, Brazil.
