

## FROM THE EXECUTIVE COMMITTEE

On behalf of the executive committee, it is with great pleasure that we present you this new edition of the monthly newsletter. As you know, the collection period of our members' common CVs expired last Nov. 12. We thank our members for their cooperation during this annual collection time. On the other hand, ReSMiQ is currently organizing, for another consecutive year, its annual symposium within the ACFAS. The organization of this event, to be held in Sherbrooke, will be ensured by Professor Fontaine of the Université de Sherbrooke. A guest speaker as well as presentations of several ReSMiQ research projects are planned for the event, after which the general assembly of members will be held. In addition, we are currently building a satisfaction survey of members. Its launch is planned for next month. This approach aims to update our center, improve the quality of offered services and add new services as needed. Another survey is also planned for students, whose work is supervised by our members. This initiative is to better target the needs of our students. We encourage you to send us any suggestions that might help us complete this project and fulfill the expectations of everyone. In a continuous effort in training of highly qualified workforce, ReSMiQ held on 25 November, an intensive course on neural prostheses. This event was marked by several academic and industrial participations and interests. Finally, ReSMiQ wishes you a pleasant time during the holiday season and look forward to seeing you in early 2011.

**We are interested in your news (exposure, involvement, and achievement) for publication in SIGNAL.**

Best regards,  
M. Sawan, director

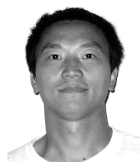

Intensive course of 26 Nov.

Dr. Mok, Hong Kong Univ.

Converter Design for Monolithic Power Management Systems

Seminar of 25 Nov.

Dr. Wang, Shanghai Jiao Tong Univ.

Neural Prosthesis: Motivations and Challenges

## NEWS FROM OUR MEMBERS

### EXPOSURE

Dr. Sawan from Polytechnique was honored on the Quebec's week of intercultural meetings.

[More details](#)

Dr. Sawan from Polytechnique offered an invited conference on brain-machine interfaces at ISNE 2010 in Taiwan.

[More details](#)

### INVOLVEMENT

Dr. Peter from Polytechnique supervised two students, who were part of the Canadian delegation of NAMIS in Tokyo.

[More details](#)

### ACHIEVEMENT

Dr. David from Polytechnique received an FCI grant for Very Efficient System Implementation (VESI) Laboratory.

[More details](#)

Dr. Langlois from Polytechnique received an FCI grant for specific applications of real-time processors.

Dr. Khazaka from McGill co-recipient of the Best Student Paper Award at NOLTA 2010 conference.
